JW Library Tutorial Curriculum

NOTE: *Official instructions on using JW Library can be found at JW.ORG (https://www.jw.org/en/online-help/jw-library/)*

About the JW Library Tutorial

This curriculum is intended for anyone instructing or guiding students using the accompanying *JW Library Tutorial*. The course consists of three practical, hands-on lessons covering **Navigation & Meetings**, **Downloading Files & Media**, and **Highlighting & Personal Study**. Before the class begins, students should be provided with a copy of the tutorial materials and be reminded to have the app pre-installed on their device.

The *JW Library Class Program* serves as a template when planning a session schedule. Five to ten minutes are designated at the beginning to orient students to their device layout. The recommended time for each lesson is 15 to 30 minutes, reserving 5 to 10 minutes for individual practice exercises and 2 to 5 minutes for review. The full course can comfortably be covered in 60 to 90 minutes. For further reinforcement after class, refer students to the official tutorials on JW.ORG.

Audience

This tutorial is crafted for individuals with basic smartphone, tablet, or desktop computer familiarity. Students should be comfortable using a touchscreen or mouse. Prior experience with the JW Library app is helpful but not required.

Learning Outcomes

Upon completing this tutorial, students will be able to:

- Navigate between Bibles, Publications, Meetings, and Personal Study.
- Access the Daily Text and locate weekly meeting study articles with one tap.
- Use Bookmarks and History to quickly find and return to scriptures.
- Search for words, exact phrases, and topics across publications.
- Download Bible translations, videos, and media in primary and secondary languages.
- Manage device storage space by sorting and deleting downloaded files.
- Highlight text, create personal study notes, and organize content with Tags.
- Create a safety backup (.jwlibrary file) to safeguard study records.

Prerequisites

Before attending this course, students should have:

- A supported device running **Android 8.0+**, **iOS 15.0+**, **macOS with M1+ chip**, or **Windows 10 v2004+**.
- At least **2 to 4 GB** of available storage (or an installed SD card) for media files.
- Access to a Wi-Fi connection prior to downloading video or audio media.

JW Library Tutorial Curriculum

Lesson 1: Navigation & Meetings (15 - 30 Minutes)

This lesson introduces students to moving smoothly between the primary sections of the JW Library app. Instructors should explain the placement of the navigation bar based on the devices present (bottom bar on iOS and modern Android; top menu on Windows). Demonstrate how the **Meetings tab** simplifies finding meeting materials each week, and how Bookmarks, History, and Search enable rapid scripture retrieval. Have students perform the practice exercises immediately following each topic demonstration.

Topics (10 - 15 minutes)

- Main Navigation Tabs (Bible, Publications, Meetings, Personal Study)
- Daily Text (locating and reading today's scripture and comment)
- Meetings Tab (Midweek Life & Ministry Meeting and Weekend Watchtower Study)
- Bookmarks (setting chapter or verse-level bookmarks)
- History (reviewing recent reading list)
- Search (searching for words, exact phrases, or Insight topics)

Exercise 1: Navigation & Meetings (5 - 10 minutes)

- **1.1** Navigate to today's Daily Text.
- **1.2** Open the Meetings tab and tap this week's Watchtower Study article.
- **1.3** Set a bookmark in a Bible chapter used in ministry.
- **1.4** Use the History feature to return to a previously viewed passage.
- **1.5** Search for a scripture with the phrase *"draw close to God"*.

Review (2 - 5 minutes)

Ask students how the Meetings tab helps them prepare during the week. Solicit questions regarding how to clear search history or replace an existing bookmark.

After completing this lesson, students will be able to:

- Switch comfortably between all main app sections.
- Access weekly meeting publications in one step without manual searching.
- Save their reading location using bookmarks and revisit past scriptures using history.
- Perform word and phrase searches in the Bible and publications.

JW Library Tutorial Curriculum

Lesson 2: Downloading Files & Storage Management (15 - 30 Minutes)

This lesson explains how to download Bibles, publications, and multimedia for offline reading and viewing. Emphasize downloading over Wi-Fi to preserve mobile cellular data. Explain how to choose lower video resolutions (such as 480p or 720p) to preserve storage on devices with limited memory. Walk students through viewing their downloaded library and sorting by **Largest Size** to manage storage responsibly.

Topics (10 - 15 minutes)

- Connecting to Wi-Fi before initiating large downloads
- Downloading Bible translations and Study Editions
- Downloading Video and Audio media (choosing resolution: 480p / 720p)
- Downloading resources in multiple languages
- Managing storage space (Publications > Downloaded > sort by Largest Size)
- Deleting outdated or rarely used media files

Exercise 2: Downloading & Storage (5 - 10 minutes)

- **2.1** Download an additional Bible translation (e.g., King James Version).
- **2.2** Download an introductory video (such as *"Why Study the Bible?"*).
- **2.3** Download the same video in another language (e.g., Spanish).
- **2.4** Sort downloaded publications by **Largest Size** and inspect storage use.

Review (2 - 5 minutes)

Discuss why sorting by Largest Size is helpful when storage is nearly full. Confirm that students know how to delete a large video once they are finished with it.

After completing this lesson, students will be able to:

- Download Bibles and publications for offline use without using cellular data.
- Choose sensible video resolutions to save device storage.
- Locate, inspect, and delete large downloaded media when storage is tight.

JW Library Tutorial Curriculum

Lesson 3: Highlighting, Personal Study & Data Safety (15 - 30 Minutes)

This lesson covers preparing study articles, marking key thoughts, and safeguarding personal notes. Demonstrate how to select and highlight text in different colors, modify or remove highlights, and attach notes with **Tags**. Introduce the central **Personal Study** tab where all highlights and notes are assembled. Finally, emphasize that personal study data is stored locally on the device, and demonstrate how to create a safety backup file (.jwlibrary) in Settings so notes are never lost.

Topics (10 - 15 minutes)

- Selecting words and sentences to highlight
- Using and switching highlight colors (Yellow, Blue, Green, etc.)
- Adding personal study notes to highlighted text
- Categorizing notes with Tags for talks and ministry
- Navigating the Personal Study hub (Notes, Bookmarks, Highlights)
- **Data Safety:** Creating a backup file (Settings > Backup and Restore)

Exercise 3: Highlighting, Study & Backup (5 - 10 minutes)

- **3.1** Open the next Watchtower study article and highlight an answer in paragraph 1.
- **3.2** Change the highlight color, or tap delete to practice removing it.
- **3.3** Add a personal study note to a highlighted answer and attach a tag.
- **3.4** Open the Personal Study tab to view your collected notes.
- **3.5** Open Settings > Backup and Restore and tap **Create Backup**.

Review (2 - 5 minutes)

Emphasize the importance of creating a regular backup file so years of personal study markings are safe if a tablet or phone is replaced or updated.

After completing this lesson, students will be able to:

- Highlight answers and key scriptures in various colors.
- Create, edit, and tag personal study notes for quick retrieval.
- Access all personal study items in the Personal Study tab.
- Safely back up their study notes and highlights to a .jwlibrary file.

Note: Continued Independent Learning

Students wishing to explore advanced features (such as Playlists and the Study Pane) should be directed to the official tutorials on JW.ORG. Encourage students to master one simple skill and become comfortable using it regularly before attempting new ones.
